Functionality
- Benefits

What is DPAS?

- Background
- Warehousing Application
Functionality
- Benefits

Background

- The Defense Property Accountability System (DPAS) program is administered by the Under Secretary of Defense for Acquisition, Technology and Logistics, a branch of the Office of the Secretary of Defense.
- The DPAS software application is serving the logistical needs of three major military branches and a significant portion of the Department of Defense.
- DPAS was selected by Headquarters Marine Corps (HQMC) Installations and Logistics (I&L) to perform as the primary accountability and equipment management system for the Consolidated Storage Program (CSP).
- DPAS will replace the Mechanization of Warehousing and Shipping Procedures (MOWASP) system for managing warehouse operations at the wholesale level (Marine Corps Logistics Command).

- Three applications hosted in a single environment:
 - o Property Accountability – Account and Fiduciary Report Personal and Real Property

- o Warehouse Management – Manage assets and expendable supplies

- o Maintenance/Utilization Management – Warranty Tracking, Preventative Maintenance Scheduling, Work Order Management, Equipment Pool, Utilization Reporting

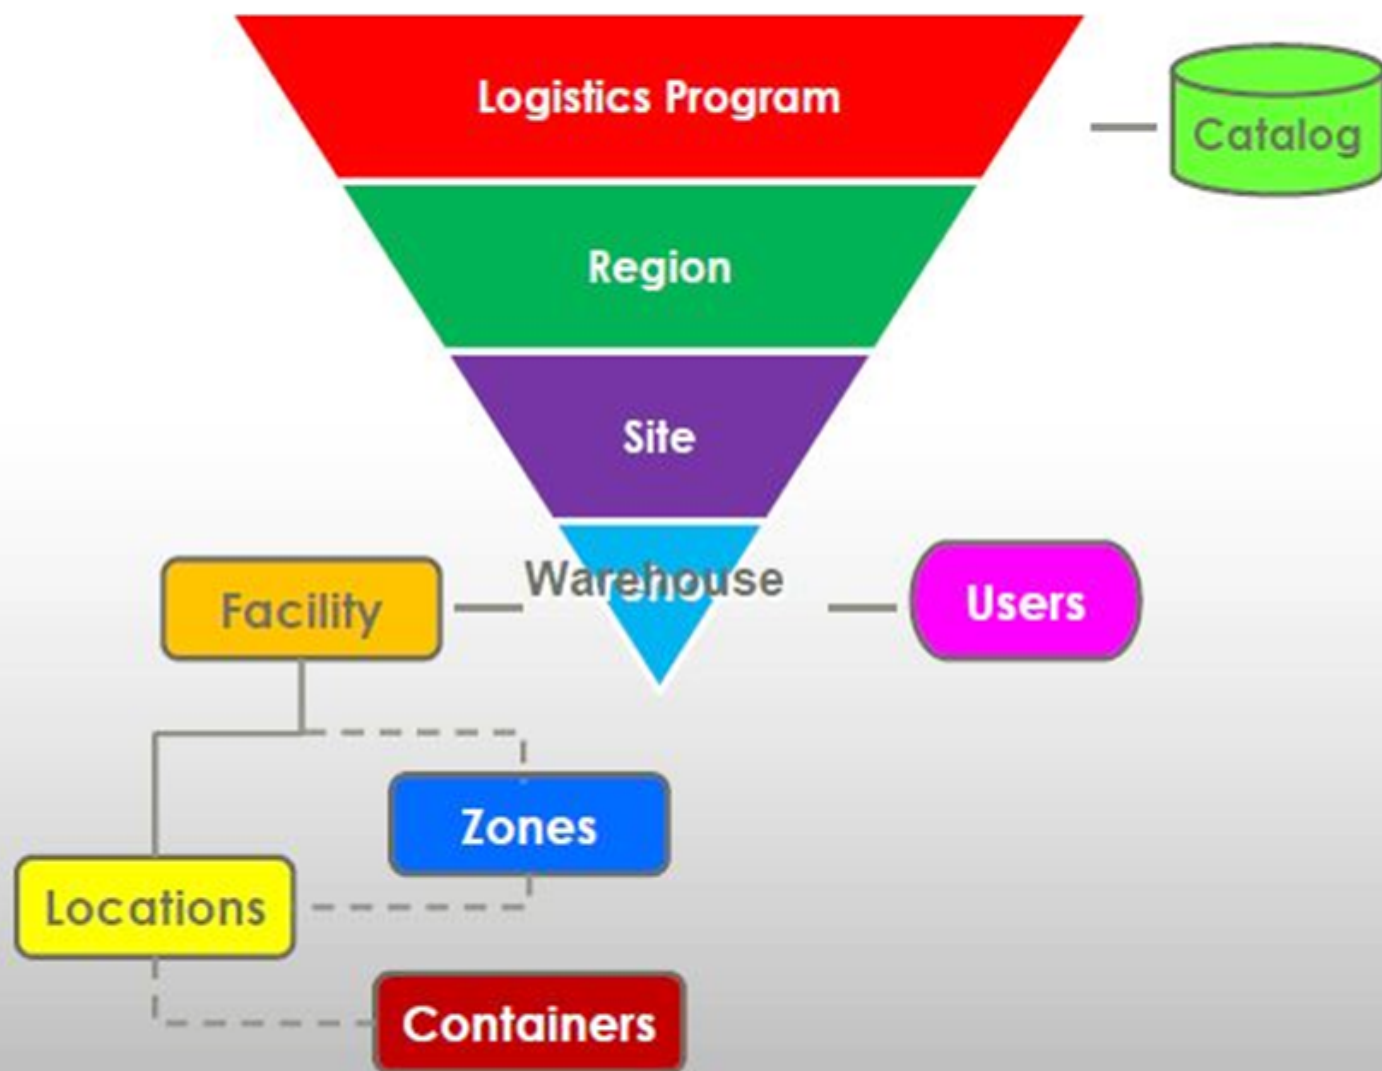

What is DPAS?

- Background
- Warehousing Application
Functionality
- Benefits

Warehousing Application Functionality

- Four Tier Virtual Warehouse Hierarchy
 - o Logistics Program -> Region -> Site -> Warehouse
 - CSP Enterprise > NCR > Quantico > NCR IIF/NCR DC/NCR OCS/NCR TBS
 - o Catalog linked at Logistics Program
 - o Updated by FLIS / USMC's TDMS/ Item Apps
- Within Warehouse
 - o Facility -> Zone -> Location
 - o Container Management

Warehousing

Application Functionality Cont.

- Materiel
 - o Managed at the Warehouse Level
 - o Supports Bulk and Serially Managed Items
 - o Shelf Life Management Capability
 - o Set Kit Outfit Management
 - o Automated Identification Technology (AIT)
 - o Stock, Store, Issue, and Return

Warehousing

Application Functionality Cont.

Basic information on set-ups for the Warehouse Application Module environment:

- Location (Warehouse Mgmt)
 - o Where equipment is placed.
 - o Must have Location type.
 - Eight types (i.e., Receiving, Indiv Issue, In-transit, etc.)
 - Drives ability to stock, store and issue equipment
- Container Type (Catalog Mgmt)
 - o Container Type defines container characteristics
- Container (Warehouse Mgmt)
 - o Containers have location
 - o Allows movement of container with multiple items between locations vice movement of individual items.
- Document Number Ranges (Warehouse Mgmt)
 - o Established for various processes/Document Type (i.e., PO-Purchase Order, TF-Warehouse Transfer, etc.)
 - o Eleven ranges: 0001-0999, 1000-1999, 2000-2999, thru 9001-9999
- Cost Center/Personnel (Warehouse Mgmt)
 - o Cost Center associates work load to an organization
 - o Personnel information allows assignment of Cost Center to track work

Warehousing

Application Functionality Cont.

Basic information on set-ups for the Warehouse Management Module environment continued:

- Commodity Type (Catalog Mgmt)
 - Another level of security.
 - Assigned to equipment and personnel.
 - Part of the security process (Roles Request form).
- Line Item Number (LIN)/Table of Authorized Material Control Number (TAMCN) (Catalog Mgmt)
 - LIN/TAMCNs used to group stock numbers.
- Size Category (Catalog Mgmt)
 - Specify sizes to be used in LIN/TAMCN.
 - Created for each sized LIN/TAMCN.
 - NSN relates to LIN/TAMCN for selection options during individual issue.
- Stock Number (Catalog Mgmt)
 - NSNs.
 - Locally establish Management Control Numbers MCN).
 - Manufacturer's part numbers.
- Substitute Stock Number (Catalog Mgmt)
 - Optional for allowing use of one stock number over the preferred.
 - Equivalent or near equivalent use.

Warehousing

Application Functionality Cont.

Basic information on set-ups for the Warehouse Management Module environment continued:

- Stock Item (Catalog Mgmt)
 - Indicates stock number used in warehouse.
 - Establish replenishment method and values.
- Manufacturer Part Number (Catalog Mgmt)
 - Cage Code, Model, Universal Product Code (UPC).
- Location Condition Code Default (Warehouse Mgmt)
 - Stock Nbr/TAMCN condition code assignment for return items.
- Master Issue List (MIL) (Customer Mgmt)
 - Common list of equipment for individual or unit issue
 - Stock number (un-sized) and LIN/TAMCN (sized/un-sized)
 - Specifies equipment and quantity
- Member Profile (Customer Mgmt)
 - Establishes Member in Warehouse application
 - Accessible from any warehouse/issue point
- Unit Identification Code (UIC) (Customer Mgmt)
 - Assigned to Member Profile
 - Identifies MIL assignment
 - Determines Member as UIC Custodian for Unit issues

Configuration Key Points (DMC)

- For an Item to be identified and utilized as Collateral (e.g. SSRI, UURI), it must be cataloged as a Collateral Item and configured correctly within DPAS. (Catalog Mgmt)
- For an Item to be utilized as a Set, Kit, Outfit, or Parent/Child, it must be configured as a SKO Item within DPAS. (Catalog Mgmt)

What is DPAS?

- Background
- Warehousing Application
Functionality
- **Benefits**

Benefits

- DoD Owned
- Hosting provided by the Program
- Application Security managed by the program
- Web Enabled, no plug-ins required
- PKI enabled
- IA Accredited with ATO in place
- Compliance with DoDI 5000.64
“Accountability and Management of DoD-Owned Equipment and Other Accountable Property”

- Home Page
- Application Features/Icons

Roles

- Role Based Security sets most processes to match the users needs – Create, Read, Update, and Delete (CRUD)
- Control access and ability to perform transactions
- 37 roles
- 10 roles used for IIF and UIF
- 5 most common roles
- Workflow Approvals
 - WF Warehouse Manager Approvals
 - WF COR Approvals
- DPAS Warehouse Roles Spreadsheet
 - <https://dpassupport.golearnportal.org/>
 - Under **Quick Links** click **Request Access**, under **DPAS Access Overview** click **Warehouse Management**, under **Download the Forms** click **view the WM Roles Spreadsheet**.

Roles Cont.

- Line Clerk
- Facility Clerk
- Site Coordinator
- Site Manager
- Warehouse Officer
- Logistics Clerk
- Warehouse Clerk
- Warehouse Specialist
- Warehouse Administrator
- Regional Manager

Using and Navigating the DPAS Warehousing Application

- Roles
- **LOGIN**

LOGIN

- Open an internet browser, and enter the appropriate URL.
- Once entered, select the DOD EMAIL Certificate.
- ❖ Training URL: <https://dpas.leidos.com/class2/wm>
- ❖ Production URL: <https://warehouse.dpas.dod.mil/>

LOGIN Cont.

Consent to Monitoring

This is a U.S. Government (USG) Information System (IS) that is provided for USG-authorized use only.

By using this IS (which includes any device attached to this IS), you consent to the following conditions:

- The USG routinely intercepts and monitors communications on this IS for purposes including, but not limited to, penetration testing, COMSEC monitoring, network operations and defense, personnel misconduct (PM), law enforcement (LE), and counterintelligence (CI) investigations.
- At any time, the USG may inspect and seize data stored on this IS.
- Communications using, or data stored on, this IS are not private, are subject to routine monitoring, interception, and search, and may be disclosed or used for any USG authorized purpose.
- This IS includes security measures (e.g., authentication and access controls) to protect USG interests—not for your personal benefit or privacy.
- Notwithstanding the above, using this IS does not constitute consent to PM, LE or CI investigative searching or monitoring of the content of privileged communications, or work product, related to personal representation or services by attorneys, psychotherapists, or clergy, and their assistants. Such communications and work product are private and confidential. See User Agreement for details.

Inquiries/History Inquiries

The image displays two screenshots of a Warehouse Management System (WMS) interface. The top screenshot shows the 'Inquiries' menu open, with options like Inventory, Issue/Return Activity, Unit Issue Activity, Unit Issue Trend Analysis, Military Member Personnel, Document, DoDAAC, DLMS Transactions, and Maintenance. The bottom screenshot shows the 'History Inquiries' menu open, with options like LIN/TAMCN, Stock Item, Region, Site, Warehouse, Location, UIC, UIC Custodian, Member Profile, and Contract. Both screenshots show a 'Message(s) of the Day' section with a message: 'WELCOME TO THE NEXT ADVANCEMENT IN A WAREHOUSE MAN...'. The interface includes a top navigation bar with 'User Id: RICHARDSONW', 'Warehouse: NCR IIF', and 'Open Warehouse Actions (761)'. The left sidebar lists various management categories like MyDPAS, Catalog Mgmt, Materiel Mgmt, AIT Mgmt, Customer Mgmt, Warehouse Mgmt, and Master Data Mgmt. The right sidebar has links for Home, Links, Contact Us, and Log Out.

- Inquires provides detailed information about the current status within an area/category of Materiel Management and is focused on the warehouse business processes and operations (i.e., Inventory (on-hand, locations, etc.), Document (By document number for Warehouse Transfers, Materiel Release Orders), etc.). History Inquiries give a history of warehouse set-up information (i.e., LIN/TAMCN, Stock Item, Region, Site, etc.)
 - o Both contain Grid Options for query, filters, and export
- The Lab will navigate the **Inquiries > Inventory > ICN Inventory** for current information on the active inventory within the Warehouse Application.
